PROFFESIONAL SKILLS

- Backend programming
- API Integrating
- Database programming
- SQL database management
- Back-end development
- Python programming
- Version Control
- Debugging
- RESTful api integration
- API architectural knowledge

SOFT SKILLS

- Critical Thinking
- Leading Self
- Leading Others
- Entrepreneurial Thinking
- Communication for impact
- Managing Complex Tasks
- Quantitative Thinking

LANGUAGES

- Swahili (First Language)
- English (Fluent)
- French (Intermediate)
- Russian (Elementary)

PROFILE

Junior Software Developer with extensive experience in back-end development, specialising in creating appealing UIs using React and optimising RESTful APIs with Django. Demonstrated expertise in database design, management, and performance optimisation, ensuring seamless integration between backend infrastructure and frontend components. Proficient in Python programming, JavaScript, SQL database management, and version control. Adept at leading complex tasks, critical thinking, and communication for impact. Career goal: to leverage technical skills and leadership abilities to drive innovative software solutions.

WORK EXPERIENCE

Beisawa Supermarket

JUN 2024 - FEB 2025

Software Developer(Contract)

- I created an appealing UI using React and modern frontend tools.
- I used Django and Django-rest-framework to create and optimise RESTful APIs that had fast response times.
- JWT and OAuth2 were used to implement authorisation and authentication, improving data security.
- I ensured that the backend infrastructure was well intergrated to the frontend resulting into a seamless fullstack project.
- Led database design and management tasks, optimising data storage and retrieval processes for enhanced performance.
- Developed new, efficient and well-tested code for variety of different software projects.
- Monitored and optimised application performance, identifying bottlenecks and implementing solutions to maintain optimal operation.
- Implemented RESTful APIs to facilitate seamless communication between frontend and backend components, boosting application functionality.
- Delivered clean, error-free code matching project scope and minimising performance issues.

EDUCATION

Bachelor of Science in Computer Engineering

2023 - PRESENT

Jomo Kenyatta University of Agriculture and Technology

Backend Web Development

MAR 2024 - NOV 2024

African Leadership Experience
